

Key elements for a robust Sustainable Development Mechanism

Juliane Voigt

24 May 2017

A new era for carbon markets

all Parties commitments to:

- contribute to limiting global warming to 1.5 degrees
- work towards de-carbonization by the second half of this century; and
- achieve the Sustainable Development Goals (SDGs)

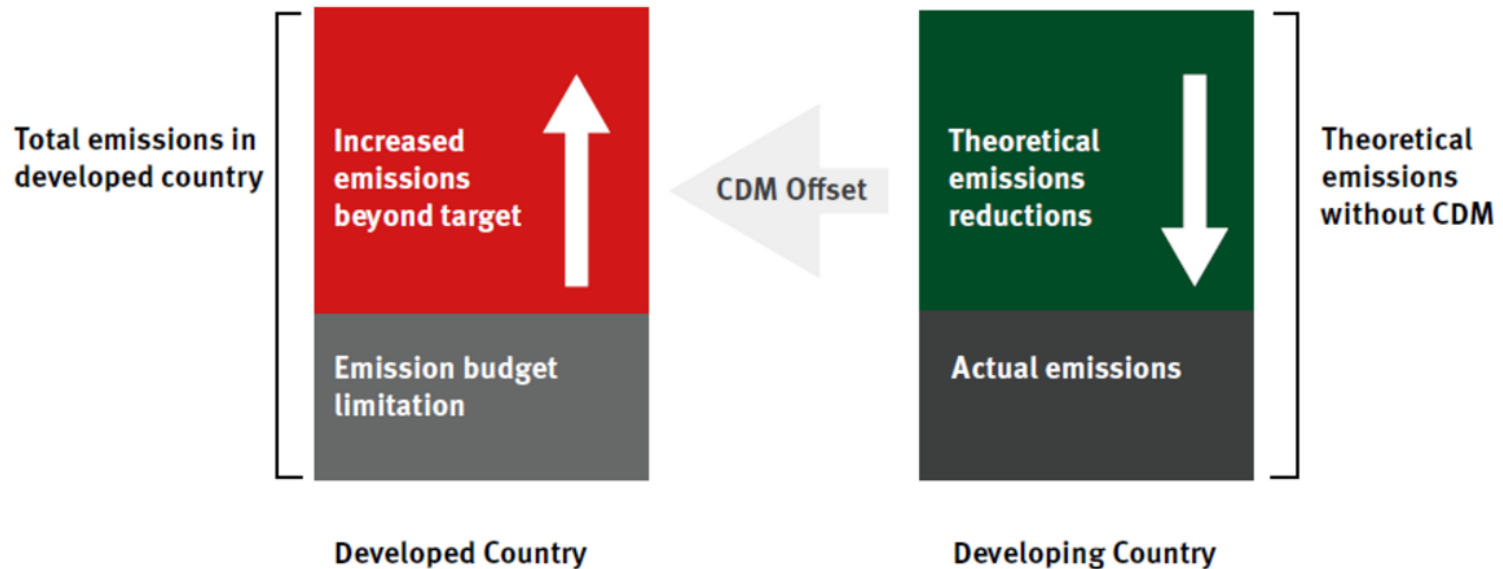

Building blocks for a robust Sustainable Development Mechanism

Carbon Market Watch Policy Brief - May 2017

The SDM- not an offsetting tool

Offsetting: No Overall Reduction

Sustainable development and environmental integrity

- Define, monitor, report and verify real, measurable and long-term sustainable development and mitigation benefits
- Ensure environmental integrity, contribute to transformational change, and avoid perverse incentives that undermine ambition

Robust governance

- Ensure effective public and local stakeholder participation
- Establish an institutional grievance process
- Establish a robust SDM oversight body
- Adapt, reform and build on beneficial existing CDM infrastructure

Thank you!
