TÜV NORD CERT GmbH (hereinafter referred to as “**TUV**”) is pleased to present this proposal to

CDM Watch (hereinafter referred to as “**the client**”),

to carry out a completeness check and submission of a clarification of the approved methodology AM0001 Version 5.2:

“Use of historical data if the key components of a HCFC-22 plants have been retrofitted or replaced”

to the UNFCCC.

TUV’s understanding of the clarification, scope of work and fee proposal are contained in the following sections.

1 TUV’s Understanding

The completeness check of the clarification is based on the document and information provided by the client. According to the “PROCEDURE FOR THE SUBMISSION AND CONSIDERATION OF QUERIES REGARDING THE APPLICATION OF APPROVED METHODOLOGIES AND METHODOLOGICAL TOOLS BY DESIGNATED OPERATIONAL ENTITIES TO THE METH PANEL” (EB 42, Annex 6) the client shall submit to TUV the form for submission of requests for clarification of approved methodologies to the Methodologies Panel (**F-CDM-AM-Subm**).

2 Scope Of Work

The submission includes an assessment, whether:

- The proposed clarification is according to the rules and guidelines provided by the CDM EB, especially “The DOE shall assess that the project participant’s request is not submitted with the intention to revise an approved methodology to expand its applicability, and if so forward the request at the earliest possible time but no later than 5 working days, after the receipt of the request from project participant, to the secretariat, through the interface for submissions for requests for clarifications”.
- The criteria of clarification are in accordance with the “Form for Submission of queries from DOEs to the Meth Panel regarding the application of approved methodologies” (**F-CDM-AM-Subm**) published by the UNFCCC EB.

TUV will upload the Submission Form on the UNFCCC website using the dedicated interface.

3 Budget Estimate

The submission of the clarification of methodology as well as the assessment charged by TUV is a lump-sum fee as stipulated in the table below.

Pos.	Total
Submission and assessment	1,500 €
Total	1,500 €

Terms of Payment

- 100% payment on submission of the clarification of methodology to the UNFCCC.

4 Miscellaneous

The general terms and conditions of TUV (download: http://www.tuev-nord.de/english/downloads/AGBCert_e.pdf) are essential part of this proposal.

Proposal: USE OF HISTORICAL DATA IF THE KEY COMPONENTS OF A HCFC-22 PLANTS

HAVE BEEN RETROFITTED OR REPLACED
