### 1 PoA:

Please find below an update on CDM Programmes of Activity (PoAs) currently open for comments, followed by a description of what a PoA is. Do also feel free to share your thoughts and concerns with the network.

Host Country	Project title	Project type	Methodology	Estimated Emission Reductions*	Period for Comments
Ethiopia Rwanda	<a href="#">Paradigm Sub Saharan Africa Cook Stove Programme</a>	<i>Biomass</i>	<a href="#">AMS-II.G. ver. 4</a>	27,050	30 Oct 12 - 28 Nov 12

\*\* Emission reductions in metric tonnes of CO<sub>2</sub> equivalent per annum that are based on the estimates provided by the project participants in unvalidated PDDs

**What is a PoA (Programme of Activity) ?** Usually, policies or standards cannot be considered as CDM project activities. However, in the form of a so-called Programme of Activities, also policies that incentivize GHG reduction or removal by sinks, can also qualify for the CDM. The idea was to broaden the CDM field and spread GHG emissions reduction activities that would have been difficult and time-consuming to develop on a project-by-project basis.
