# CIVIL SOCIETY INITIATIVES FOR LOW-CARBON CITIES IN CHINA

*German- China Environmental  
NGO Forum*

**August 3<sup>rd</sup> 2013, Bonn**

**Conference Language:** English

*Fourth Ring Road in Beijing  
- increasing use of private passenger cars is a major challenge for low-carbon urban development of Chinese cities.*

## Exhibition

The program China-Europe NGO Exchange Fellowship 2013 aims to establish an exchange platform for China and Europe NGOs. In order to leverage the exchange among different organizations, there will be an exhibition during the event. Seven organizations present their organization and projects in the event. This exhibition will give you an extra opportunity for networking.

We are looking forward to meeting you!

---

## China-Europe NGO Exchange Fellowship 2013

---

Europe and China are developing increasingly closer relations to lead the global transformation towards a low-carbon economy. Low-carbon urban development as a solution to climate change is an area for specific cooperation potential between organizations from Europe and China. To develop new partnerships for cooperation on the level of civil society, the China Association for NGO Cooperation (CANGO) and the China Civil Climate Action Network (CCAN), in cooperation with the Rhine Academic Forum, organize the China-Europe NGO Exchange Fellowship 2013 on Climate Change & Low-carbon Urban Development. The exchange fellowship is financially supported by Stiftung Mercator.

*Chinese and European NGO fellows visit to tree planting project site in Fengning County, which has the purpose to reduce sandstorms in Beijing and combat local desertification.*

---

## Organizers

---

### Introduction of CANGO

The China Association for NGO Cooperation (CANGO) is a non-profit membership organization operating nation-wide across China. Founded in 1992, CANGO has more than 20 years experience in international cooperation and exchanges. CANGO hosts the Secretariat of the China Civil Climate Action Network (CCAN), a network of 18 domestic Chinese environmental NGOs working on climate change issues.

### Introduction of RhAF e. V.

Rhine Academic Forum e. V. (RhAF e. V.) is a non-profit organization registered in Bonn. RhAF e. V. was founded by Chinese scholars in the University of Bonn in May 2006. Aiming at promoting academic exchange and sharing work experience, RhAF e. V. has organized more than 110 events in various fields for talks and discussions on different topics from basic science to ongoing social issues. In 2012, the Sustainable Development Forum, the 100th event, took place in Königswinter.
