

Slovenian position on ESR and LULUCF proposal

Katjuša Šavc, katjusa@focus.si

Focus Association for sustainable development

GHG emissions in ESR sectors in Slovenia for the year 2013

Transport

- ▶ Share of freight transported by railways - 2020 target **ACHIEVED**
- ▶ Specific CO2 emission from new cars - 2013 target **ACHIEVED**
- ▶ Specific CO2 emissions from all cars - **BELLOW 2013 TARGET**
- ▶ Share of transport fuels from renewable energy - **BELLOW 2013 TARGET**
- ▶ Passengers' kilometres in public transport - **BELLOW 2013 TARGET**

Slovenian position on ESR and LULUCF proposal

AGREES:

- ▶ Transit country
- ▶ Surpassing targets reflected in the proposal
- ▶ Starting point
- ▶ Carbon sinks from LULUCF counted towards national targets

DISAGREES:

- ▶ Exclusion of forest management sinks

Starting point

2016-2018 average emissions starting point

Extrapolation of ESR targets										
2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
11.1	11.0	10.8	10.7	10.5	10.4	10.2	10.1	9.9	9.8	9.6

2020 real emissions starting point

Extrapolation of ESR targets										
2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
11.0	10.9	10.7	10.6	10.4	10.3	10.2	10.0	9.9	9.7	9.6

- 54,1 % of Slovenian territory is covered by forest
