A Clean Fit:

How the EU
Emissions Trading
System and the
Clean Energy
Package can work
together for the
climate

Background

At a time when the negotiations on the EU Emissions Trading System (EU ETS) and the Clean Energy Package are well underway, policymakers are increasingly discussing the need for coherence between the EU ETS and other climate and energy policies, such as energy efficiency and renewables.

Carbon Market Watch and the **Permanent Representation of the Netherlands to the EU** would like to invite you to join us for a debate on this topical issue. This event brings together policymakers and stakeholders to analyse the interaction between different policies and offer ways forward in order to safeguard the environmental integrity of EU climate action in line with the Paris Agreement.

Time and place

Tuesday 6 June, 14.00-18.00 (*followed by a drinks reception*)

Permanent Representation of the Netherlands to the European Union
4-10, Avenue de Cortenbergh, 1040 BRUSSELS

More details will follow shortly
